## **DETAILED ACTION**

### ***Reasons For Allowance***

1. Claims 55-62 (renumbered 1-8 respectively) are allowed.
2. The following is an Examiner's statement of reasons for allowance:  
  
The cited prior art taken alone or in combination fails to teach the claimed invention of real-time alert service from a data query system.
3. Specifically, claims 55 and 59 disclose the presentation of output to at least one user from a personalized markup document during an outbound communication by responding tone or more prompts presented from the personalized markup document.
4. The closest prior art of Emnett, Keith, Synthetic Audio Newscast The MIT Media Laboratory, December 1998, pp. 1-2 teaches the provision of a "synthetic audio newscast" but fails to teach or suggest the presentation of output to at least one user from a personalized markup document during an outbound communication by responding tone or more prompts presented from the personalized markup document. Only to the extent that this feature is not present in the prior art cited by examiner, the present case is found to be allowable over the art of record.
